Learning Greek

Language • Culture • Travel • Lifestyle

Hi! I'm Marina, the creator behind Learning Greek, an independent platform that helps people connect with Greece through its language, culture, travel experiences, and everyday life.

Today, Learning Greek reaches thousands of people every month who are learning Greek, planning a trip to Greece, or exploring Greek culture and lifestyle.

What started as a passion project has grown into a thriving community of learners, travelers, expats, and people with Greek roots from all over the world. My goal is simple: to make Greek approachable, enjoyable, and part of everyday life, not just something you study from a textbook.

LET'S WORK TOGETHER!

I love collaborating with brands and businesses that genuinely align with my audience and content. Partnership opportunities include:

I only partner with brands I genuinely believe will bring value to my community.
